LED Lights

Chips

Drivers

Mounted PCBs

Circuit Boards

Diodes

Illuminating the nation!

LED Expo has proven to be a remarkable platform for business during each and every single one of its editions. In 2020, the fair will once again gather the very best of the LED lighting industry. The 22nd edition of LED Expo will take place from 20 – 22 May at the Bombay Exhibition Center in Mumbai.

The Indian LED lighting industry is booming and benefits greatly from new government initiatives to upgrade from CFL to LED to increase cost effectiveness. Market demand rises day by day and the local market has a growth projection of CAGR 26.6% from 2017 to 2023 (Source – Ken Research Report).

LED Expo capitalises on these opportunities by connecting the dots. The fair invites industry stakeholders to a promising platform, where they can discover and source the latest technologies and developments from across the globe.

Overview of 2019 Mumbai edition

295
exhibitors

10,221
business visitors

13,800 sqm
gross exhibition space

21% growth
in exhibition space

81% of exhibitors were
satisfied with their participation

6 participating countries and regions
China, Hong Kong, India, Korea, Taiwan & UAE

Visitors' influence on purchasing / procurement decisions

Visitors' nature of business

Area of responsibility of trade visitors

Visitors' satisfaction with the attainment of trade fair visit objectives

Exhibitors' satisfaction index on reaching relevant visitor target groups

Exhibitors' satisfaction index on overall participation

I have been following LED Expo for quite a few years now. It is really amazing to see the new technologies, products, lighting systems, manufacturing equipment, and the overall participation and interest among the exhibitors and visitors. I have seen the exhibition grow, and this year's edition was the best one so far.

Mr SK Marwah, Senior Director, Electronics and Information Technology, Government of India

This year we have introduced frameless panels and downlight COBs that can change colour depending on personal requirements. The footfall to our stall has been great and we are hoping for more valuable customers in the coming days. We are thankful for the organisers to give us this business platform.

Mr Dhaval Shah, Director, Western Electricals

I am visiting LED Expo Mumbai in search for smart indoor and outdoor lights available in India. I also found a company that offers smart poles with various built-in features. I am happy that the platform offers options like these to help us stay updated on the latest industry trends.

Mr Deepak Suthar, Chief Engineer, Ahmedabad Municipal Corporation

Display your expertise

LEDs - High power, liquid, SMD, OLEDs and other types

LED applications and lighting - Architecture, automotive, building, casinos and discos, commercial, decorative landscapes and gardens, exteriors, floors, interiors, offices, residential, retail, specialist, stages, streets, tunnels, underwater and fountains
